MID-CITIES (TX) LINKS STEM SUMMIT

Arlington, Texas, April 14th - The Mid-Cities (TX) Chapter of The Links, Incorporated will host a 2-Day STEM Summit on "All about Water Worldwide: Fresh Water, Food Source, National, International, and Legislative Concerns" during the days of April 19th & 23rd, 2016. The April 2016 Summit is inspired by the International Trends Facet and the Legislative Issues Linkage Committee. The Health and Human Services Facet team will provide after school snacks and a healthy breakfast and lunch for the field trip for students at participating Arlington Independent School District (AISD) schools at the Dallas Aquarium.

One of our ongoing signature programs is a comprehensive S.T.E.A.M. Enrichment Program and Summer Camp. Throughout the school year, this program provides elementary and middle school students with mentoring and field experiences that focus on careers in science, technology, engineering, arts and mathematics (S.T.E.A.M.) as well as exposure to traditional careers requiring S.T.E.A.M. applications such as visual arts. We support and utilize community resources that enables MCL to promote post-secondary education through our scholarship program.

Visit www.midcitieslinks.org to learn more about our programs and events that benefit the DFW community.

ABOUT THE LINKS, INCORPORATED

The Mid-Cities (TX) Chapter (MCL) was chartered on April 20, 1985. The vision began in 1981 by 25 service-minded women that sought to take their community service to the next level in Irving, Arlington and Grand Prairie, and in particular the Dalworth community. For nearly three decades, MCL members have provided comprehensive programs and leadership service locally, nationally and internationally. Our programs include an emphasis on education and leadership, health and social issues with multigenerational and global impacts, and the implementation and cultivation of visual and performing arts projects in the D/FW metroplex.
